20' talk + 5' Q&A

End-to-End Cybersecurity · NEMO Meta-OS
Horizon Europe - Synelixis (Coordinator)

20' talk + 5' Q&A

20' talk + 5' Q&A

Intelligent Cyber Threat Intelligence Platform
DiGiTAL Europe - UniPI (Presenter)

20' talk + 5' Q&A

AI-Driven Cybersecurity for Financial Services
DIGITAL Europe - UBITECH (Coordinator)

Welcome & Opening Remarks

Prof. John Soldatos | Dr. Habtamu Abie · ECSCI Cluster

Coordination

[Series overview](#) · [ECSCI mission & objectives](#) · [Introduction of speakers](#)

CyberNEMO: End-to-End Cybersecurity to NEMO Meta-OS

 **Andreas Papadakis** · Synelxis Solutions SA | CyberNEMO

End-to-end security orchestration · NEMO Meta-OS framework · Critical infrastructure applications

ECHO: European Network of Cybersecurity Centres and Competence Hub

 **Speaker Dr Paraskevas Bourgos** Netcompany S.A | ECHO

Project

ECHO: Empowering and Co-Creating Resilient Cities in Europe'

VIGILANCE: Intelligent Cyber Threat Intelligence Platform

 George Manias · Panagiotis Karamolegkos · University of

Piraeus (UniPi) | VIGILANCE

AI-powered threat intelligence · Cross-sector threat sharing · Proactive cyber defence

CyberAid: AI-Driven Cybersecurity for Financial Service Providers — Preview

 **Dr. Georgios Fatouros** · INNOV-ACTS Ltd | CyberAid

AI-driven threat detection · Financial sector security · DIGITAL Europe Programme

CyberAid is a DIGITAL Europe Programme project (DIGITAL-ECCC-2024-DEPLOY-CYBER-07-KEYTECH) coordinated by UBITECH, focused on AI-driven cybersecurity for financial service providers. The project develops intelligent threat detection and incident response capabilities adapted to the specific risk profile and regulatory environment of EU financial institutions. **Website:** <https://cyberaid-project.eu>

Practical Information

-  **Format:** Online Webinar (connection link shared upon registration)
-  **Recording:** Session will be recorded and shared via ECSCI community channels
-  **Language:** English
-  **Organizers:** John Soldatos (INNOV-ACTS) · Habtamu Abie (NR Norway)
-  **Cluster:** www.ecsci.eu

Funding Acknowledgement: *The presenting projects have received funding from the European Union's Horizon Europe and DIGITAL Europe research and innovation programmes. The ECSCI cluster brings together project teams in cybersecurity for critical infrastructure protection to share results and foster cross-project collaboration.*
